

OBINWANNE ALISIGWE

DATA ANALYST

PROJECTS

Gun Violence Data

The project involved data cleaning, wrangling, feature engineering, exploratory data analysis, clustering, time series modelling, evaluation, and concluding with reflections on challenges and insights for improved analysis.

Tools: Python, Jupyter, Pandas, Seaborn and Matplotlib

Rockbuster Online Streaming Project,

The project applies data cleaning, joins, advanced filtering, common table expression and subqueries in order to analyse the data and answer any ad-hoc business related questions. The final report is delivered as a Tableau.

Tools: SQL and Tableau.

Instacart, Online Grocery,

The project applies data wrangling, data quality and consistency checks, merging dataframes, exploratory statistics and data visualisation using Matplotlib and Seaborn. Final report to stakeholders presented in Excel.

Tools: Python and Excel.

TOOLS

- Tableau
- Python / Jupyter Notebooks
- Excel / Microsoft Office
- SQL

SKILLS

- Data Cleaning & Preparation
- Exploratory & Descriptive Analytics
- Integrating & Transforming Data
- Querying, including Filtering, Sorting, & Grouping
- Performing Statistical Analysis, including Linear Regression
- Writing Technical Documentation & Reports
- Creating Data Visualisations & Dashboards
- Presenting & Public Speaking
- Facilitating Team Meetings & Communications

LANGUAGE

- English - Mother Tongue
- German - Intermediate (B2-Level)
